SINGLE 30 COMPACT NAVAL MOUNT

The Oto Melara Single 30mm Gun Mount is a new generation naval system, which meets the following requirements:

- high rate of fire: up to 700 rds/min;
- selectable repeat single shot fire up to about 120 rds/min;
- dual ammunition feeding system;
- availability of two different types of ready-to-fire rounds;
- high accuracy and short reaction time;
- easy installation, no-deck penetration;
- high reliability and ease of maintenance;
- buffer batteries for autonomous operation in case of ship's power failure;
- complete remote control and high servo-systems performance.

The characteristics of the Mount make it particularly suitable for:

- surface role, through accurate fire at defined targets in peace time patrol operation or to place shots at precise points on hostile craft at suitable ranges also with the repeated single shot capability;
- anti-aircraft role, thanks to high rate of fire;

Single 30 Compact Naval Mount can also be provided with 25 mm Cannon.
